94-20

Dr. Harmon McAllister  
The Council for Tobacco Research-USA  
900 Third Avenue  
New York, NY 10022

Dear Dr. McAllister:

I am the Chair and Barry Shane is the Co-Chair of the Sixth Biennial FASEB Summer Research Conference on "Folic Acid, Vitamin B<sub>12</sub> and One Carbon Metabolism" that will be held from July 31-August 5 of this year at Copper Mountain, Colorado.

You have been a generous supporter of this particular Conference in the past and contributed \$500 to our last Conference that was held in August, 1992. Barry and I would appreciate it very much if you would continue your support and contribute a similar amount to our 1994 Conference. Your contribution will be acknowledged at the Conference and used to support both the speakers (see enclosure), and fellows and graduate students.

Based on our past Conferences, we anticipate attracting 150-180 participants and will have sessions on the following topics:

1. B<sub>12</sub> and Folate Enzymes and the Regulation of Methionine Synthesis
2. Folate Enzymes and the Metabolic Control of One Carbon Metabolism
3. Clinical Aspects of B<sub>12</sub> and Folate Deficiency
4. S-Adenosylmethionine and Methylation
5. Emerging Chemotherapeutic Targets for Cancer
6. Folate and Vitamin B<sub>12</sub> Biosynthesis
7. Homocysteine and Vascular Disease
8. Emerging Chemotherapeutic Targets Involving Mammalian and Nonmammalian Organisms
9. Binding and Transport of Folate and B<sub>12</sub>

This Conference has always attracted an excellent mix of individuals with interests ranging from clinical research to the most basic biomedical and molecular research. It has also attracted a number of individuals from academia and industry and I am also enclosing a registration form should you or any scientists at your Company be interested in attending. Please call me (303-270-8474) if you require any additional information.

Thank you for your assistance in this important matter.

Sincerely,

Robert H. Allen, M.D.  
Professor of Medicine  
Professor of Biochemistry

P.S. Checks should be annotated "Folic Acid, Vitamin B<sub>12</sub> and One Carbon Metabolism", made payable to "FASEB Summer Research Conferences", and either mailed to me at the address on the letterhead or to FASEB Summer Research Conferences, 9650 Rockville Pike, Bethesda, MD 20014.
